

# RACQUETBALL

## *Skill Levels*

MENTOR COMMUNITY  
RECREATION CENTER

Ratings are used to provide for ease in playing with other racquetball players to ensure that both players have a safe, fun, and competitive game. For new members / players at MCRC, we will be happy to help provide a fair rating that will help you get started with racquetball!

### *Beginner*

Requires good understanding of basic skills, rules, shots, game strategy, court coverage, safety (i.e., spatial awareness, injury situations, control, etc.). Should not play in the A, B, or C level structured group play until basics are covered and present under general play conditions.

### *Level C & B*

Have a basic awareness/understanding of the game, as well as representative shots/skills, game strategy and have represented this through play with other beginner, B and C level players. Requires an assessment by rball coordinator (and other A level players) to ensure skills/game awareness is represented while playing other Beginner, B, and C level players.

### *Level A*

Have a more advanced awareness/understanding of the game, as well as representative shots/skills/game strategy and have represented this through play with other B and C level players. Requires an assessment by rball coordinator (and other A level players) to ensure skills/game awareness is represented while playing other A level players.
